ŠKODA connect

IT'S ALL ABOUT CONNECTIVITY. IT'S ALL ABOUT YOU.

ENHANCING EVERY JOURNEY TO MAKE LIFE BETTER.

ŠKODA Connect unlocks a host of new features and convenient services to help you make the most of every journey you take.

Helping businesses and drivers manage their needs better.

Once you activate ŠKODA Connect, you'll benefit from comfort, safety and assistance features when you need them, and real-time information at your fingertips.

Connected cars are becoming a must-have.

From the way we work and do our shopping to the way we communicate with friends, connectivity touches virtually every aspect of our lives. And for you, connecting your smartphone to your ŠKODA makes every day easier.

Making each journey even more comfortable.

Enjoy wide-ranging features, including remote access to your ŠKODA via a mobile app to Google Earth services, traffic information, key vehicle health information, remote locking, car location and even up to the minute fuel prices. ŠKODA Connect can help make every journey smarter and make a real difference to your business.

In this guide, you'll find everything you need to know about ŠKODA Connect. We'll cover the functionalities it offers, how to activate it and the great benefits that will make a difference every day.

Contents

The best connections for a busy lifestyle.

Set area and speed limits. Plan a trip from home. Schedule charging of ENYAQ iV remotely. Stream music and make calls without taking your smartphone in your hand. Wouldn't it be great if you could do all this - and more - through one simple app. With the simply clever features of ŠKODA Connect, you can.

Benefits of ŠKODA Connect.

There are many ways you can connect to your ŠKODA anytime, anywhere.

Depending on your equipment and activated packages, you can for example:

Journey plan:

Plan the best routes from home with the app and send them straight to your ŠKODA.

Prepare from home:

Lock and unlock the vehicle and control the cabin climate remotely - all from the comfort of home.

Maximise uptime:

See online traffic information and get real-time route updates and live traffic jams, road works or accident alerts.

Get where you need to be:

Find a parking space, where to eat, charge, refuel and much more.

Find your ŠKODA easily:

Unsure where you parked? ŠKODA Connect allows you to find it. Finding your ŠKODA in a crowded carpark is fast and easy with the honk and flash feature.

Fast assistance:

If you have an accident and airbags deploy, ŠKODA Connect automatically alerts emergency services including location, as well as connecting you by phone so you can be looked after until help arrives. You can also call for emergency assistance directly, by pressing a button on the three-button module.

Better security:

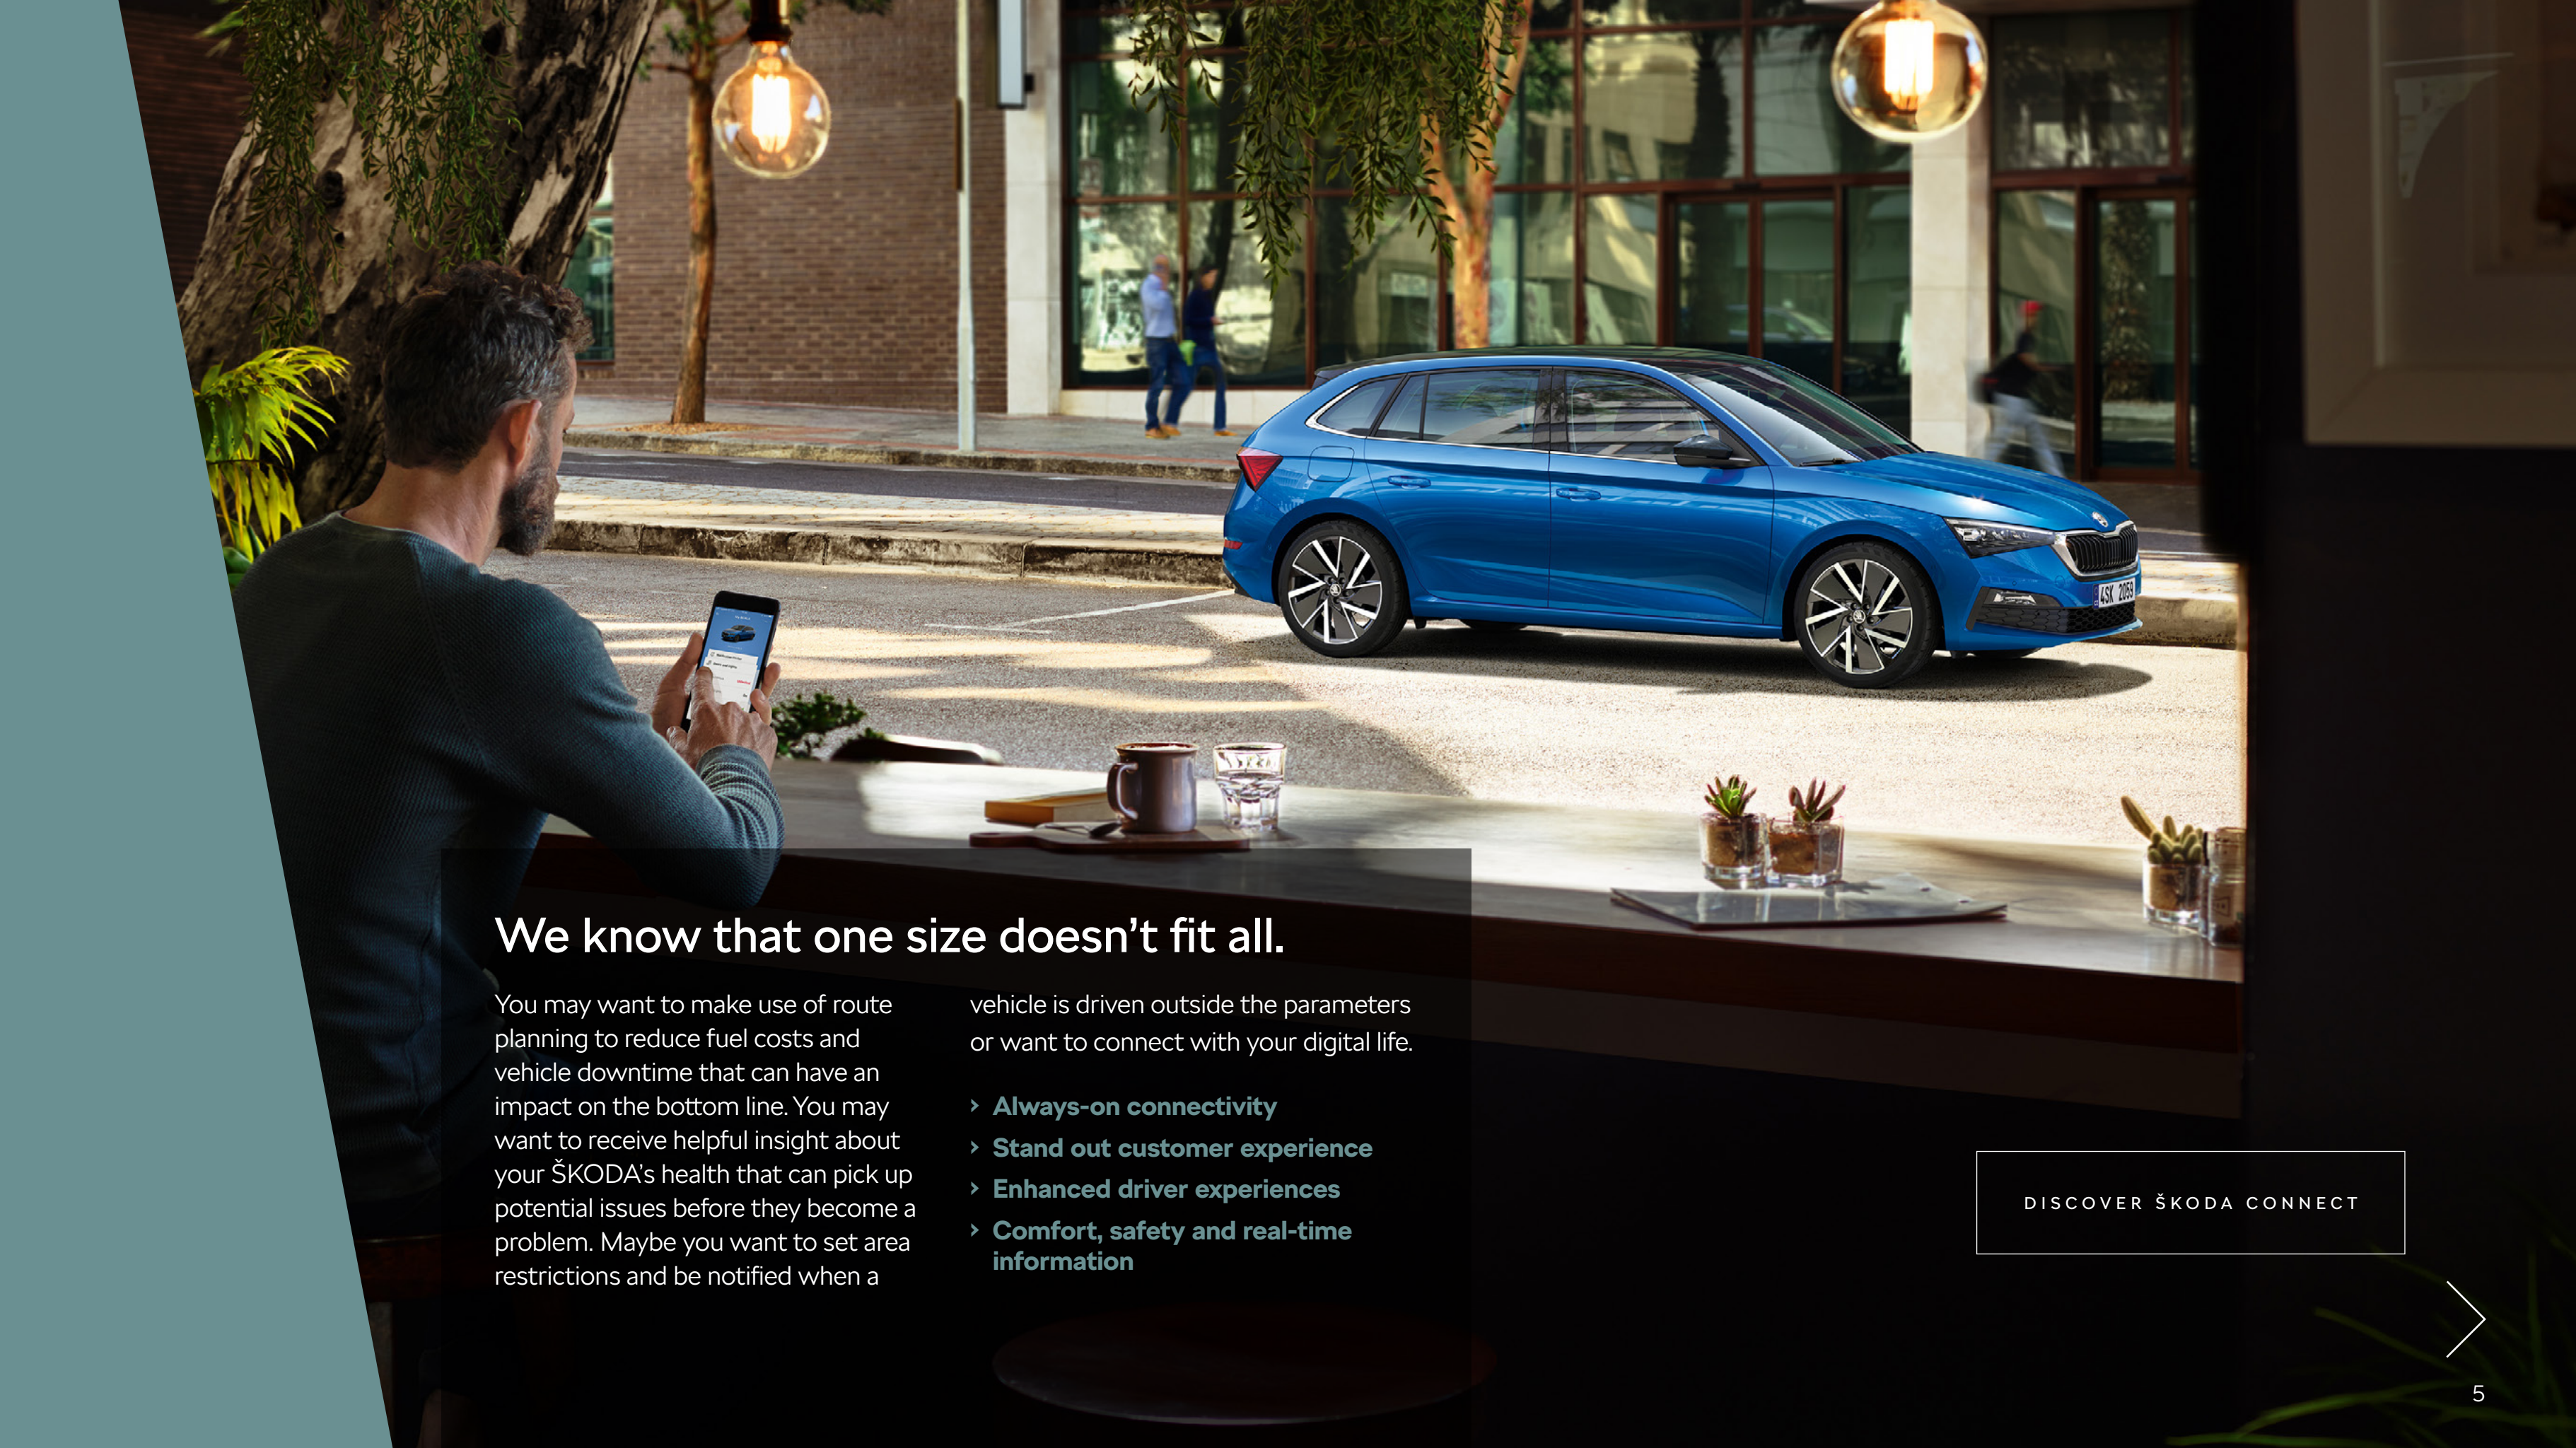

Lock and unlock your car remotely and get immediate anti-theft alerts, no matter where you are.

Recharge:

Check and manage your range and charge levels using your smartphone. Easily locate your nearest charging station and set it as a destination.

Schedule:

With the ENYAQ iV, you can schedule charging times when it suits you best. You can also set a charge limit to preserve the battery.

We know that one size doesn't fit all.

You may want to make use of route planning to reduce fuel costs and vehicle downtime that can have an impact on the bottom line. You may want to receive helpful insight about your ŠKODA's health that can pick up potential issues before they become a problem. Maybe you want to set area restrictions and be notified when a

vehicle is driven outside the parameters or want to connect with your digital life.

Please fill filter to show services availability of the specific ŠKODA car. You can check the general availability of ŠKODA Connect services in this tool but it is for informative purposes only. Content changes are reserved. For more information please always contact your authorized ŠKODA Partner.

ŠKODA Connect is packed with great features, but to help, we've rounded up the top three that we know our customers use most frequently.

Top 3 features.

1. Conveniently lock and unlock the doors and close windows remotely by smartphone from anywhere.
2. Remotely activate the heating or air conditioning in advance, check on the charging status and schedule a charge. All before setting off on your journey.
3. Keep an eye on fuel, range, oil and AdBlue levels remotely. Get an overview of mileage, and fuel consumption via your smartphone.

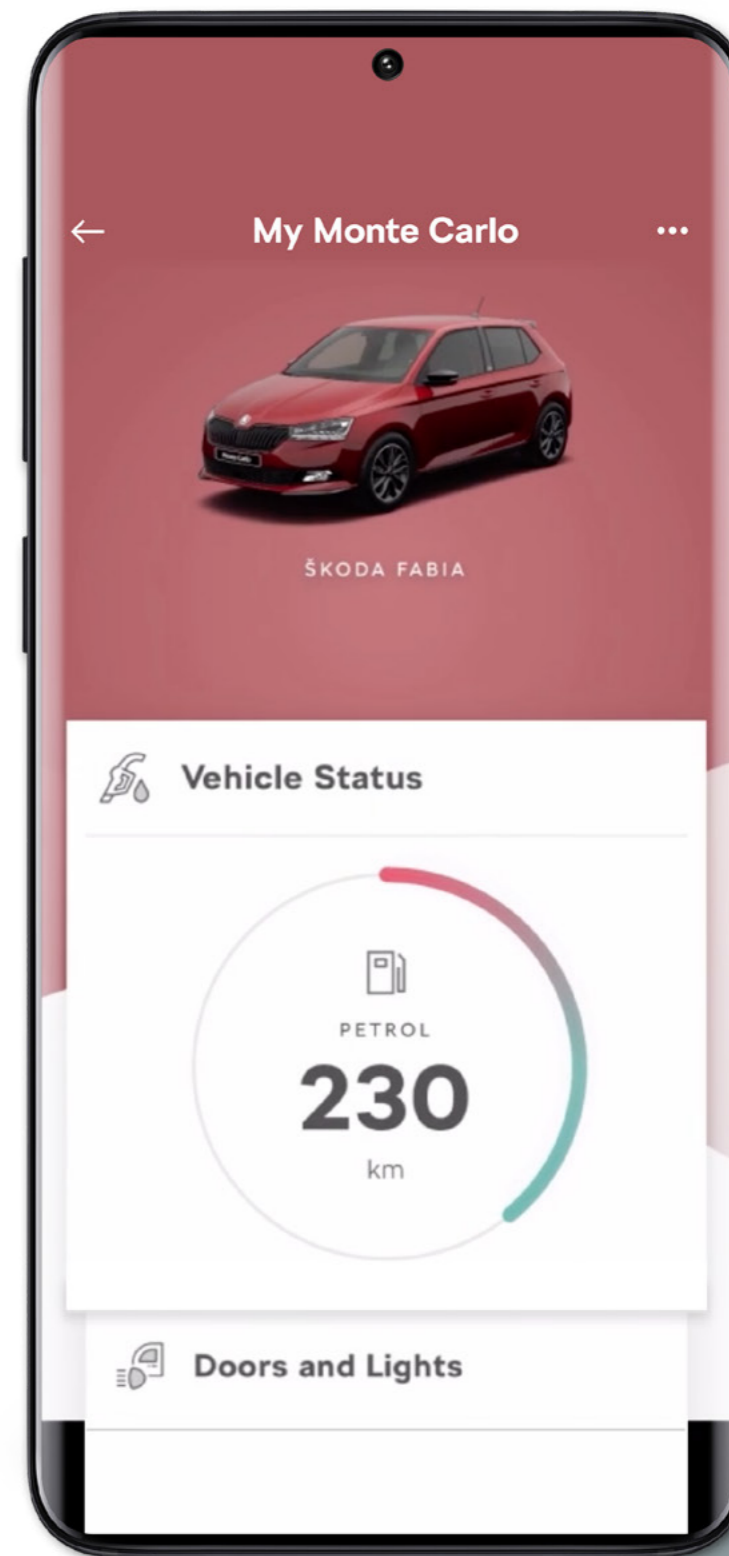

1.

2.

3.

Connect with your new ŠKODA.

Connecting to your ŠKODA to get the most out of every journey is fast and easy with just a few simple steps.

Unlock the features

Remote Access

Check the lock status at a glance and lock and unlock your vehicle from wherever you are. Get real-time information – like charging status or where your car is parked. You can even check the temperature remotely.

Infotainment

Easily find the nearest charging stops and somewhere to park. Travel easily with the latest traffic information and real-time route updates to maximise uptime.

Safety

Automatically connect a service centre or call assistance if you have a minor accident. Be alerted to potential theft and get key vehicle health information and alerts so you're aware of potential problems.
